PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in software development, technical support, networking, IoT, and smart home automation. Experienced in developing web-based applications using HTML, CSS, JavaScript, PHP, and MySQL, as well as installing, configuring, and troubleshooting technology systems. Passionate about software engineering and practical technology solutions, with a strong willingness to learn and contribute in a professional environment.

TECHNICAL SKILLS

Programming	Python, PHP, JavaScript
Web	HTML, CSS
Database	MySQL
Tools	Git, GitHub
Technical	Technical Support, Networking, IoT, Smart Home Automation, Hardware & Software Troubleshooting

PROFESSIONAL EXPERIENCE

Technical Intern — Blue Camel Energy / LifeSmart

July 2025 – September 2025 | Abuja, Nigeria

- Assisted with the installation and configuration of smart home automation systems.
- Installed and configured smart switches, sensors, cameras, smart curtains, door locks, and smart stations.
- Supported Wi-Fi connectivity, networking, and device configuration during residential automation projects.
- Assisted with troubleshooting and maintenance of IoT and smart home systems.
- Configured automation solutions in collaboration with technical team members.

IT Intern — KADA Hive Innovation & Technology Hub

Kaduna, Nigeria

- Provided technical support for computer hardware and software issues.
- Assisted with software installation and computer system configuration.
- Supported basic network troubleshooting and maintenance.
- Assisted users with technical problems and routine IT support tasks.

PROJECTS

Web-Based Agricultural Auction Platform — Final Year Project

- Developed a web-based platform connecting farmers directly with buyers through an online auction system.
- Built the user interface using HTML, CSS, and JavaScript.
- Implemented backend functionality using PHP and used MySQL for database management.
- Designed an online bidding process to improve market access and promote transparent pricing of agricultural products.

Python Calculator

Built a command-line calculator in Python for basic arithmetic operations and common input-error handling.

EDUCATION

Nile University of Nigeria — B.Sc. Computer Science

2021 – 2025
